Kansas City, Missouri

Susan Richards Johnson & Associates, Inc. is a woman owned, small business with extensive experience in historic restoration and renovation, adaptive reuse, new construction, and planning in both residential and commercial construction. Representing thirty-one years of architectural experience with an emphasis on building renovation and adaptive reuse, the firm has a design approach that responds first to the client's needs while maintaining an architectural solution appropriate to the specific project.

With a special emphasis on contextual suitability, the firm's design approach responds to the unique challenges of each project with the goal of both satisfying the client and developing sound and appropriate architectural solutions. Each solution is tailored to fit the opportunities and constraints of the individual project's design, budget, and schedule - an approach that has resulted in a noteworthy history of implemented on-time and on-budget projects for the firm.

Susan Richards Johnson & Associates, Inc. represents a commitment to the field of historic preservation and renovation, exemplified by their dedication to historic buildings. The firm is headquartered in Downtown Kansas City, Missouri, within the historic Scarritt Building. The building's owner, Ozark National Life Insurance Company, has retained the firm's professional services for the building's ongoing historic restoration and renovation.

Susan Richards Johnson & Associates, Inc. has professional registration in the State of Missouri and Kansas. The firm has been a bona fide Women's Business Enterprise (WBE) since 1989. Additionally, the firm meets all 36 CFR Part 61 requirements set forth by the Federal Advisory Council on Historic Preservation, and has worked with both State and Federal Historic Rehabilitation Tax Credit projects.
